

# SAMEER ALAM

Data Analyst | Advanced Excel, SQL & Power BI

New Delhi, India | sameetalam74@gmail.com | +91-9667738958 | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience in operations and insurance, combining hands-on business-domain experience with SQL, Python, Excel, Power BI and statistical analysis. Experienced in operational reporting, data quality, KPI tracking, dashboard development and data transformation. Built self-directed analytics projects involving fraud detection, retail sales analysis and ETL/data warehousing. Currently pursuing BCA from IGNOU and seeking a Data Analyst/MIS/BI role.

## TECHNICAL SKILLS

Advanced Excel & MIS Reporting: Pivot Tables, VLOOKUP, INDEX-MATCH, Complex Formulas, VBA Macros, Data Validation, Conditional Formatting, Advanced Filtering, MIS Report Preparation, KPI Development, Automated Dashboards

Programming & Databases: SQL (MS SQL Server, Joins, Aggregations, Queries), Python (Pandas, Data Analysis)

Data Visualization & BI Tools: Power BI (Dashboard Design, Data Modeling, DAX), Tableau (Data Visualization), Statistical Analysis

Data Operations: Data Cleaning & Transformation, ETL Pipelines, Exploratory Data Analysis, Report Automation, Process Documentation, Data Quality Assurance

## PROFESSIONAL EXPERIENCE

### Operations Executive Aug 2025 – Present

Deeparc Management Services Pvt. Ltd. | New Delhi, India

- Managed and maintained accurate client and claims data with emphasis on data quality and timely updates.
- Prepared operational reports for management review, consolidating data across accounts and records in Excel.
- Coordinated with multiple departments and stakeholders to ensure data accuracy across all records.
- Identified data discrepancies and implemented corrective actions to maintain reporting integrity.

### Operations Executive Apr 2024 – Aug 2025

Hindustan Insurance Broker Company | New Delhi, India

- Conducted data-driven insurance claim surveys with 100% accuracy and compliance verification.
- Prepared Excel-based operational reports tracking claim status and key performance metrics for management review.
- Monitored claim metrics and provided regular updates on operational performance to stakeholders.
- Coordinated with multiple departments including surveyors, beneficiaries, and insurers to ensure data integrity.
- Analyzed operational patterns and trends to identify improvement opportunities and potential discrepancies.
- Maintained detailed records and documentation ensuring compliance with organizational standards.

## KEY MIS & DATA ANALYTICS PROJECTS (SELF-DIRECTED)

### Fraud Detection Report | SQL, Power BI, DAX

Generated and cleaned 10,000+ rows of insurance claim data using SQL and Power Query. Created critical KPIs including Fraud Rate, Premiums, and Claim Trends using DAX functions. Built interactive dashboards for fraud monitoring and customer insights, published on Power BI Service for stakeholder access and real-time reporting.

### Retail Sales Dashboard & MIS Report | Power BI, Data Modeling

Designed star schema with Customer, Product, Promotion, and Fact tables for comprehensive data organization. Built interactive MIS dashboards analyzing regional sales trends, promotional impact, and performance comparisons using advanced slicers and data relationships.

### Data Warehouse with Medallion Architecture | SQL, ETL

Implemented Bronze-Silver-Gold layered data warehouse for comprehensive data management. Designed and deployed ETL pipelines to clean, transform, and model data for business-ready insights on customer behavior and operational performance.

## CORE COMPETENCIES

MIS Report Development • Advanced Excel • Data Accuracy & Compliance • Database Management • ETL Pipeline Development • KPI Development • Problem-Solving • Multi-Stakeholder Coordination • Dashboard Development • Business Intelligence • Statistics • Data Analysis
